

MANAGED LABEL SERVICES®

The Little Finisher That Can

METAS 1-SERIES® (330mm) Semi-Rotary Digital Finishing System

The METAS 1-SERIES® Label Finisher sets a new standard for affordable, efficient label finishing. Constructed from the same quality components as industry leading finishers, the METAS 1-SERIES® provides consistent and reliable label finishing for a fraction of the cost. The METAS 1-SERIES® is designed for both experienced and first time operators, making it the perfect solution for any business.

Want to save up to 50% on your label costs?

Pair your METAS 1-SERIES® with Metas Managed Label Services®. We can provide labels that are up to 50% cheaper, remarkably simple, unimaginably efficient, and wildly customizable. It's a whole new world for labels. Say goodbye to labels as usual.

Complete Versatile Solution

Laminate, die cut, slit and rewind labels up to 13" (330mm) wide by 19.5" (495.3mm) long at speeds up to 40fpm (12.192m/min)

High Quality Industrial Design

1" (25.4mm) steel frames, industrial servo motors, compact size: 53"x48" (1.34m x 1.22m) and approximately 1,500lbs (680kg)

Simple And Efficient

Reduce waste and set up quickly with the easy user interface, auto die registration, short web path of 58" (1.4732m) and lateral die adjustment

Machine Specifications

Max Web Width	13" (330mm)
Min Web Width	2" (51mm)
Substrate Thickness Max	Variable
Unwind Max Roll Size	13" (330mm)
Rewind Max Roll Size	13-15" (330-381mm)
Laminating Roll Size	11" (279mm)
Matrix Roll Size	15" (381mm)

Max Speed	40fpm (12.192m/min)
Max Cylinder Size	22" (558.8mm)
Slitting Type	Razor / RD Score
Power Requirements	205-240 3 Phase
Dimension	53" x 48" x 65"
Weight	1,500 lbs (680kg)
